## Scraping data from Twitter

This week you just had one task, which was to get a developer account so we can scrape data from Twitter. Please upload a screenshot of your developer portal once you've completed all the steps associated to the task.

You can go to the developer portal at <https://apps.twitter.com>

See example here:

3. Upload your screenshot here: (Note: You will need to be signed into your utexas/google account for this) \*
